BRINGING A LITTLE BIT OF EDEN TO YOUR SCHOOL

The Eden Project and The Planet Mark: Working in partnership to deliver virtual sustainability workshops for Primary schools.

eden project

The Planet Mark | The Eden Project

The Planet Mark is a sustainability certification which recognises continuous improvements, encourages action, and builds an empowered community of like-minded individuals.

The Eden Project, an educational charity, connects us with each other and the living world, exploring how we can work towards a better future.

Its visitor destination in Cornwall, UK, is nestled in a huge crater. Here, massive Biomes housing the largest rainforest in captivity, stunning plants, exhibitions and stories serve as a backdrop to striking contemporary gardens, summer concerts and exciting year-round family events.

Children in a changing climate

Grown from Eden's experience of working with hundreds of thousands of young people and their teachers, we considered what skills and attributes people need to thrive now and into the future, and how we can best teach them.

Our joint approach fosters a deep connection to the natural world. Research shows that children who are more connected to nature are more likely to adopt pro-environmental behaviours. The planet is facing challenges on an unprecedented scale. Our shared objective is to create a future that we all want to live in by:

- Understanding our connection to, and dependency on, the natural world.
- Using this connection to motivate engagement.
- Developing sustainability thinking skills to inform that engagement.
- Understand how our actions can make a difference.

About the Workshops

Introduction to the Eden Project and The Planet Mark: A bespoke version of an introductory PowerPoint will be provided for your school to introduce the children to the sessions, accompanied by a film (hosted on Eden's YouTube channel).

Live virtual workshops: Led by an Eden Education Officer over MS Teams or Zoom. Each of these sessions will provide a combination of live interaction, presentation, task setting and feedback. These are whole-class live sessions delivered to your classroom computer and big screen. Class teachers will be provided with all the information they need and a set of printable resources for each session. As part of this programme Eden will work with your school for a day delivering your choice of the following sessions to the same or different classes. Each session lasts one hour, delivered to a class at a time, with three sessions available in a day.
